DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-3, 5-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 13 are incorrect as the fascia does not surround the foam, merely the front, top and bottom. The fascia and beam surround the foam portion.

Claims 1 and 13 are also incorrect as the embodiments disclosed as filed with foam encapsulated matrixes do not have a high density panel extending forward of the second end of the matrix. Embodiments of figure 15 have such a panel without any disclosure to extending forward. Embodiments of figures 17 and 19 lack any foam encapsulating the matrixes as claimed (disposed in/within).

Claim 10 appears to be incorrect as no embodiment with a high density panel in front and against the beam and extending forward is disclosed.

Allowable Subject Matter

3. Claims 1-3, 5-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Vismara is cited to show a matrix bumper.
